2. May I know, whether enough materials have been secured for supply of electricity from Jog to S. Kanara and at what stage the work is? The Chief Engineer, Mr. Sundaram visited Mangalore for this purpose but I was out of station. I wish you could kindly arrange that the Department concerned gives previous intimation of the visit of officers to Mangalore, to me, as Secretary of the District Advancement Association, South Kanara, so that we could know what is happening from time to time and also be of any help to them if necessary. Mr. V.S. Kudva is leavin on a foreign tour at the beginning of next month and may be away for about four months. You may remember that both of us along with others went on a deputation to Mysore in connection with this subject before the Govt. was pleased to sanction the scheme.

No.2369-I/51-1 dated 7th May, 1951.

Sir,

Sub: Electricity - Supply of Jog power to South Kanara.

Ref: Government memorandum No.4798-J/49-16 dated 20th April, 1951.

The progress of work so far under Jog Supply to South Kanara is briefly given below:

1) Transmission Line Survey:-

Preliminary reconnaissance of the route of the 110 KV line from Hulikal to Mangalore has been completed and detailed survey is in progress. About 14 miles of the route has been surveyed till the end of last month.

2) Supply of materials for the line and substations:

A

Specifications for the supply and erection of the 110 KV line were prepared and issued and tenders invited. These are due on 15-6-1951.

Specifications for the substation equipment are expected to be issued in about a week's time from now.

Contracts are expected to be awarded for the line by August 1951 and for Sub-station equipment by October, 1951.

B

As desired by the Secretary of the District Advancement Association, South Kanara previous intimation of the tour programme of officers of this department in South Kanara will be sent to him in future.
